

AEQUSTM

ecosystems of efficiency

Aequs Pvt Ltd (pronounced a - cus) is a global manufacturing company specialising in Precision Machining, Sheet Metal fabrication, Assembly, Forging and Special Processing for Aerospace, Automotive and Oil & Gas industries. The manufacturing facilities are located in Belagavi (Karnataka, India), Houston (TX, USA), Paris (TX, USA), Aubigny (France), Cholet (France), Besancon (France), Delage (France). The Belagavi facility is located inside the 250-acre Aequs SEZ, India's first precision engineering Special Economic Zone (SEZ).

Aequs has the largest aerospace machining capacity in the private sector in India. In addition to developing in-house capabilities, the company actively pursues partnerships to create efficient manufacturing ecosystems. It currently has four joint ventures, all of them located inside Aequs SEZ in Belagavi.

Joint Ventures

Aerospace Processing India Pvt Ltd
with Aequs and Magellan Aerospace of
Canada

Aerostructures Assemblies India Pvt Ltd
with Saab AB of Sweden

SQuAD Forging India Pvt Ltd with Aequs
and Aubert & Duval SAS
(ERAMET Group) of France

Deephole Solutions India with Aequs
and Precihole Machine Tools

KEY FACTS

Chairman & CEO

Aravind Melligeri

Revenue

FY 2015 - 16
INR 2750 million

Employees

1500+

Corporate Office

Aequs SEZ Belagavi,
Karnataka, India

Manufacturing Locations

Aequs SEZ* Belagavi,
Karnataka, India
Houston, Texas, US
Paris, Texas, US
Aubigny, France
Cholet, France
Besancon, France

*SEZ occupies 21 operating units in total
and over 600,000 SQFT of
manufacturing space

Customers (partial)

Airbus, Bosch, Baker, Hughes,
Dassault, Eaton, GKN,
Honeywell, HAL, JVS, SAAB,
SAFRAN, Spirit Aerosystems,
UTAS

History

- 2006**- QuEST Global Manufacturing started as part of QuEST Global.
 - Bangalore facility started.
 - Jacobs Vehicle added as customer.
 - Agreement with Magellan to support manufacture of Boeing 787 landing gear components.
- 2007**- Aerospace Processing India(API) set up as a JV with Magellan Aerospace.
 - SABCA added as customer.
 - Delivered first parts for Airbus 380.
- 2008**- Eaton Aerospace added as customer.
- 2009**- QuEST Global SEZ started.
 - API starts operations with approvals from Boeing and Airbus.
 - UTAS added as customer.
- 2010**- Belgavi facility started.
 - Honeywell and Airbus added as customers.
 - Entered oil & gas vertical with long term agreement with Baker Hughes.

- 2011**- SQuAD Forging Set up as a JV with Setforge and Aubert & Duval SAS (ERAMET Group) of France
- 2012**- Delivered first aerosystems assembly.
 - Aerostructures Assemblies India(AAI) set up as a JV with Saab.
 - Houston facility started.
- 2013**- First delivery from SQuAD Forging.
 - Restructured the business into autonomous business units and companies.
- 2014**- Installed 10000 ton press at SQuAD Forging.
 - First delivery from AAI for Airbus 380.
 - Aequs is born by separating and rebranding manufacturing and SEZ from QuEST Global.

- 2015**- Recipient of FKCCI- Best Exporter Award Gold.
 - Started new automotive manufacturing facility at Aequs SEZ, Belagavi.
 - Acquired operations of T&K Machine, Paris, Texas.
 - Inaugurated the largest aerospace machining facility in India.
 - Deephole Solutions India set up as a JV with Precihole to fuel its growth in Oil & Gas sector
- 2016**- Acquired the operations of France based SiRA Groupe.
 - Awarded with country's first 1 lakh titanium machined parts p.a for Airbus.
 - Signs contract with All Metal Services Ltd (AMS) to establish metal processing centre in SEZ.
 - Aequs SEZ signs contract with Apollo Aerospace Components to expand country's only FTWZ on Aerospace.
 - Expands API's unit, bringing in additional capabilities and capacity.
 - Awarded with Innovation Award by Airbus
