

AEQUS[®] AEROSPACE

ecosystems of efficiency

Aequs Pvt Ltd. is one of the most dynamic precision engineering companies in India, specializing in precision machining, sheet metal manufacturing, aerostructure assemblies, closed die forging, special processing and assemblies for Aerospace industry. The company's customers include world leaders such as Airbus, Boeing, Baker Hughes, Dassault, Eaton, GKN Aerospace, HAL, Honeywell, JVS, SAAB, SAFRAN, Spirit Aerosystems and UTAS. Aequs operates several manufacturing facilities in India, the United States and France. The manufacturing facilities are located in Aequs SEZ, Belagavi (Karnataka, India), Houston (TX, USA), Paris (TX, USA), Aubigny (France), Cholet (France), Besancon (France) and Delage (France).

Aequs has the largest aerospace machining capacity in private sector in India. In addition to developing in-house capabilities, Aequs actively pursues partnerships to create an efficient manufacturing ecosystem. It currently has four joint ventures (JVs), all of them located within the Aequs SEZ in Belagavi.

Joint Ventures

Aerospace Processing India Pvt Ltd
with Aequs and Magellan Aerospace of
Canada

Aerostructures Assemblies India Pvt Ltd
with Saab AB of Sweden

SQuAD Forging India Pvt Ltd with Aequs
and Aubert & Duval SAS
(ERAMET Group) of France

Deephole Solutions India with Aequs
and Precihole Machine Tools

Chairman & CEO

Aravind Melligeri

Revenue

FY 2016-17
INR 5263 MILLION

Employees

1500+

Corporate Office

Aequs SEZ Belagavi,
Karnataka, India

Manufacturing Locations

Aequs SEZ* Belagavi,
Karnataka, India
Houston, Texas, US
Paris, Texas, US
Aubigny, France
Cholet, France
Besancon, France
Delage, France

*SEZ occupies 22 operating units in total
and over 600,000 SQFT of
manufacturing space

Customers (partial)

Airbus, Boeing, Baker
Hughes, Dassault, Eaton,
GKN, Honeywell, ISRO, HAL,
JVS, SAAB, SAFRAN, Spirit
Aerosystems, UTAS

History

- 2006** - Jacobs Vehicle added as customer.
 - Bangalore facility started.
 - QuEST Global Manufacturing started as part of QuEST Global.
- 2007** - Delivered first parts for Airbus 380.
 - SABCA added as customer.
 - Aerospace Processing India (API) set up as a JV with Magellan Aerospace.
- 2008** - Eaton Aerospace added as customer.
- 2009** - UTAS added as customer.
 - API starts operations with approvals from Boeing and Airbus.
 - QuEST Global SEZ started.
- 2010** - Entered oil & gas vertical with long term agreement with Baker Hughes.
 - Honeywell and Airbus added as customers.
 - Belgaum facility started.
- 2011** - SQuAD Forging set up as a JV with Setforge and Aubert & Duval.
- 2012** - Houston facility started.
 - Aerostructures Assemblies India (AAI) set up as a JV with Saab.
 - Delivered first aerosystems assembly.
- 2013** - Restructured the business into autonomous, business units and companies.
 - First delivery from SQuAD Forging.
- 2014** - QuEST Global Manufacturing rebranded as "Aequs".
 - First delivery from AAI for Airbus 380.
 - Installed 10000 ton press at SQuAD Forging.
- 2015** - "Deephole Solutions" set up as a JV with Precihole.
 - Established the largest aerospace machining facility in India
 - Acquired Texas-based T&K Machine, renamed as "Aequs Aero Machine".
- 2016** - Recipient of the Airbus Innovation Award
 - Aequs signs contract with Apollo Aerospace to establish country's only Aerospace FTWZ
 - Aequs SEZ signs contract with AMS to establish material processing center
 - Awarded with largest contract of titanium machined parts for A320 NEO.
 - Acquired SiRA Groupe, France
- 2017** - Safran approves SQuAD Forge
 - Aequs signs first contract with Boeing
