Aero India: Make in India on track, what about made for India?

By Vinayak Hegde | 04:13 PM Thursday, 16 February 2017

"The main stumbling block is specialization," Devjeet Majumdar, General Manager (Marketing) of Aequs, told Asianet Newsable. "While we have the money and spirit, in many cases we lack the know-how. And Indian products are only now matching international requirements," he added. For its part, Aequs seemed to be doing fine. They will be opening a new facility in Goa purely for the Indian defense sector.
